Grammarly Representative

Grammarly, Inc.
548 Market Street, #35410
San Francisco, CA 94104

Dear Grammarly representative,

This letter is to express my interest in the job posted on the Grammarly careers page for a Front-End Software Engineer. My experience and studies with a variety of front end technologies has honed my knowledge of web development fundamentals, and I'm confident that I would be a great addition to the Grammarly team.

I believe that I would greatly suit this role because of my experience with building dynamic web content with many of the technologies listed in your front-end stack. I have a strong understanding of Javascript, HTML, CSS, and how they interact across browsers. I have also had experience using ReactJS and other UI frameworks. I have a passion for the intersection of design and implementation, and I thoroughly enjoy tackling user-facing problems from the perspective of the consumer.

I also do have a genuine interest in Grammarly's team and product. I am fascinated by technologies that find exciting new ways to enhance life as we know it. Along with this letter, I've submitted a copy of my resume, along with links to my website and other professional media accounts. I can be reached by email any time at lau.lyn.marsh@gmail.com. Thank you for your time today, and I look forward to speaking further with you about this opportunity.
